RISK FACTORS

In evaluating the Company and its business, the following challenges, uncertainties and risks should be considered in addition to the other information contained in this Annual Information Form. In addition to the risk factors relating to the Company discussed below, the reader may also wish to consider the risks relating to certain of the companies in which Brookfield Investments holds investments, which are also reporting issuers and whose public disclosure filings, including their Annual Information Forms, contain risk factors specific to their respective operations. Copies of these documents may be obtained from the Secretary of the Company or are available electronically on SEDAR at www.sedar.com.

No Ownership Interest

An investment in shares of the Company does not constitute an investment in the investments held by the Company. Shareholders of Brookfield Investments do not own the investments held by the Company and do not have any voting rights in respect of such investments.

Interest Rate Fluctuations

The market value of the preferred shares of the Company is affected by the level of interest rates prevailing at such time. A rise in interest rates may have a negative effect on the value of such shares.

Fluctuations in Value of Investments

The value of the shares of the Company may vary according to the value of the investments held by the Company. The value of these investments will be influenced by factors not within the control of the Company, including the financial performance of the respective issuers of securities the Company has invested in, which may result in a decline in value of the investments held by the Company and/or in

dividends not being paid on one or more of the investments held by the Company, interest rates, currency fluctuations and other financial market conditions. In addition, some of the investments held by the Company may be redeemed by the issuers at any time.

Cyclical Nature of Forest Product Investments

The Company's forest product investments are cyclical. Fluctuations in the general level of economic activity in the world's major economies influence the demand for and prices of the various products produced by its investee companies, although the cycles for individual products may be at different phases at any time. The Company's earnings from this sector are particularly sensitive to changes in the prices of panelboards and paper.

Limitations on Liquidity of Investments

While the policy of the Company will be to hold its investments and not engage in trading, there may be circumstances in which some or all of the investments of the Company will have to be sold, including to fund retractions and redemptions of Series A Senior Preferred Shares. Certain of the investments of the Company issued by public companies are either not listed or are currently not heavily traded, and two of the companies the Company has invested in are private companies. In addition, the Company will, in certain cases, hold a significant proportion of the particular class or series of shares of companies that the Company has invested in. As a result, the fair value of the investments held by the Company may differ from the proceeds realized by the Company on the sale of such shares.

Private Company Issuers

GLHI and Brookfield Europe, two of the companies in which the Company has investments, are private companies which do not make public financial or other disclosure.

Resale Restrictions on Certain Securities

The Company's ability to sell a substantial portion of its investments may be limited by resale restrictions under applicable securities laws which will affect when or to whom the securities may be sold. The securities issued by GLHI and Brookfield Europe L.P. may not be publicly traded because they are not reporting issuers. Accordingly, if and when the Company is required to sell such securities, the liquidity of the securities may be limited. This could affect the time it takes to sell the securities and the price obtained by the Company for securities sold.

DESCRIPTION OF CAPITAL STRUCTURE

The Company is authorized to issue an unlimited number of Common Shares; an unlimited number of Class 1 Senior Preferred Shares, issuable in series (of which 25,000,000 have been designated as Series A); an unlimited number of Class 1 Junior Preferred Shares, issuable in series (of which 18,001,739 have been designated as Series A); and an unlimited number of Class 1 Special Preferred Shares, issuable in series (of which 2,646,400 have been designated as Series A, 100 have been designated as Series B and 8,000,000 have been designated as Series C).

DBRS has informed the Company that their rating of “Pfd-2(low)” for the Class 1 Senior Preferred Shares, Series A is conditional upon the following:

- (a) the asset coverage for the Class 1 Senior Preferred Shares, Series A being at least three times the issue price of C\$25.00 per share (asset coverage being defined as (i) the market value of Brascade’s portfolio of investments, less accrued expenses; divided by (ii) the par value of the Class 1 Senior Preferred Shares, Series A and senior debt of the Company);
- (b) the Company’s senior debt not exceeding 10% of the market value of its investment portfolio; and

Credit ratings are intended to provide investors with an independent measure of the credit quality of an issue of securities. The credit rating accorded to the Class 1 Senior Preferred Shares, Series A by DBRS is not a recommendation to purchase, hold or sell the Class 1 Senior Preferred Shares, Series A in as much as such rating does not comment as to market price or suitability for a particular investor. There is

no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a rating agency in the future if, in its judgment, circumstances so warrant.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Mandate of the Board

The mandate of the board of directors of the Company (the "Board") is to supervise the conduct of the affairs of the Company directly and through its committees. In so doing, the Board endeavours to always act in the best interests of the Company. In carrying out its responsibilities, the Board appoints the senior executives of the Company and meets with them on a regular basis to receive and consider reports on the Company's business. Along with those matters, which must by law be approved by the Board, key strategic decisions are also submitted by management to the Board for approval.

In addition to approving specific corporate actions, the Board reviews and approves the reports issued to shareholders, including annual and interim financial statements, as well as materials prepared for shareholders' meetings. The Board also approves the Company's overall business strategies and annual business plans for achieving its objectives.

The Board's mandate is set out in a written Charter which is renewed and approved annually. The Board's Charter is reproduced in full in Appendix A to this Annual Information Form.

Appointment of Directors

The Company supports the appointment of directors nominated by its voting shareholder, independent directors and directors drawn from senior management. This combination leads to a healthy exchange in Board deliberations, resulting in objective, well-balanced and informed discussion and decision making. Nominees for election to the Board are reviewed by the Board.

New directors are supplied with comprehensive information about the Company and its major investments. Directors are provided with opportunities to meet individually in work sessions with senior management to obtain further insight into the operations of the Company, and are involved on a regular basis in discussions with management. Individual directors are also free to consult with members of senior management whenever so required and to engage outside advisers with Board authorization.

Director compensation is reviewed annually by the Board. The Board also periodically assesses the size and composition of the Board and its committees, reviews the effectiveness of the Board's operations and its relations with management and assesses the performance of the directors.

Composition of the Board

The Board consists of five members. Three of the five directors, Messrs. John Barratt, Howard Driman and James Kelly, are considered by the Company to be independent, that is, free from any interests in or relationships with the Company's major shareholders and management. Messrs. Barratt and Kelly are also directors of BAM Split Corp., a company listed on the TSX, which owns approximately 8% of the shares of Brookfield. Mr. Driman is also a director of BAM Investments Corp., a company listed on the TSX, which owns approximately 9.7% of the shares of Brookfield.

The other two directors, Messrs. Edward Kress and Alan Dean, are officers or directors Brookfield and certain of its subsidiaries and are considered by the Company to be related directors. The Board believes

that the composition of the Board fairly represents the investment in the Company by its major shareholders and by the minority shareholders of the Company.

The Board's three independent directors meet in private sessions at the conclusion of all regularly scheduled Board meetings under the leadership of the independent director who is also the Chairman of the Board's Audit Committee, who is also an independent director.

Audit Committee

The Audit Committee is composed of three directors, John Barratt, who is the Committee's chair, Howard Driman and James Kelly. The Board has determined that all these directors are independent and financially literate. Both Messrs. Driman and Kelly are Chartered Accountants. Messrs. Barratt and Kelly have extensive senior level financial management experience with major Canadian public companies. Mr. Driman has extensive financial management experience with charitable foundations and private investment companies.

The Audit Committee is responsible for monitoring the Company's systems and procedures for financial reporting and controls, reviewing all public disclosure documents containing financial information and monitoring the performance of the Company's external auditors. The Audit Committee is also responsible for reviewing the Company's quarterly and annual financial statements prior to their approval by the full Board. The responsibilities of the Audit Committee are set out in a written charter, which are reviewed and approved annually by the Board. The Audit Committee's charter is reproduced in full in Appendix B of this Annual Information Form.

Relationship with Management

Each year, the Board discusses the Company's strategic initiatives and business plans with management. The Board's annual approval of the business plan constitutes the mandate for management to conduct the affairs of the Company, with material deviations being reported and considered as appropriate by the Board.

In addition to the reports presented to the Board at its meetings, the Board is also kept informed by management of important corporate developments on a regular basis. The directors periodically assess the quality, completeness and timeliness of this information, particularly insofar as it relates to identifying the principal risks facing the Company and the initiatives being taken to manage these risks. The Board also meets independently of management from time to time.

Since the Company has no dedicated management or administrative staff, it has not adopted a written code of business conduct. The directors and officers of the Company who are also officers of Brookfield are subject to a written Code of Business Conduct and Ethics that has been adopted by the board of directors of that company. A copy of this code is available on the web site of Brookfield at www.brookfield.com at *About Brookfield/Corporate Governance* and is filed on SEDAR at www.sedar.com.
